Hire is conditional upon acceptance of these Terms & Conditions.

1. The client is required by the terms of our registration under the radioactive Substances Act 1993 to supply us in advance of hire with a copy of their current registration certificate, the terms of which must permit them to store and use the radioactive sources contained in the nuclear density gauge(s) they wish to hire.
2. The client assumes full responsibility for the storage, transportation and use of instruments upon delivery.
3. The client will be charged at cost for the transportation of instruments to and from the agreed place(s) where they are required.
4. A minimum of two working days notice is required for the termination of hire.
5. If a specialist courier is to be used for the return of a nuclear density gauge, the client is responsible for the correct labeling of the instrument and for providing the courier with a Consignment Certificate in accordance with the Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations, 2007, and for the handing over of the instrument to the courier.
6. The chargeable hire period is the number of weeks or part weeks of hire.
7. The client will be charged for the cost of any repairs or replacement of parts, including hand tools, required for any reason other than fair wear and tear during use in accordance with the manufacturer's instructions.
8. Terra Tek Limited will be responsible for arranging for and the cost of the manufacturer's calibration of instruments, and for the statutory leak testing of nuclear density gauges at the appropriate intervals. The client agrees to make the instruments available for this purpose.
9. Terra Tek Limited accepts no liability for site downtime caused by instrument failure for whatever reason, nor does Terra Tek Limited undertake to replace the equipment immediately. Notwithstanding this, Terra Tek Limited will of course make every effort to advise and assist with any instrument operating problems, or to facilitate manufacturer's repairs if required.
10. In the event of loss or theft of an instrument, or damage to any instrument however caused whilst on hire, the client is responsible for informing Terra Tek immediately, and for all costs arising and for the continued hire costs until the instrument is repaired or replaced.
